Experience

Full Stack developer #Hokito / AI.Politechniki 22/24 Łódź
10.2018 - 01.2019

The internship during which I mainly worked on creating an application for the private travel agency creamadventureclub (coding templates based on layouts, writing scripts in PHP, for generating static pages early filled with information from the database, authorization and authentication of users, etc.).

During that time I was also creating simple websites (pharmex.pl, amplifica.pl, claritywindows.com)

Frontend developer #Hokito / AI.Politechniki 22/24 Łódź
06.2017 - 08.2017

The internship during which I was learning how to create simple websites using HTML, CSS and JavaScript. It was the beginning of the journey with frontend, and the first steps with JS (handling user events, creating simple slider, and smooth scrolling effects on click etc.)

Courses - Certificates

Web programming course #CodesCamp / CoderCrew
10.2019 - 01.2020

During that course I was expanding knowledge of object oriented programming, asynchronicity, queries (fetch, axios etc.), Node.js (creating Rest API, routing, authorization and authentication using tokens), GIT and also React and Redux. I have finished course with a high score and I own a certificate.

Skills

Programming Languages

JavaScript (ES6), CSS/SCSS, HTML, PHP

Libraries & Frameworks

React, Gatsby, Node.js, Express

Tools

Git, Npm, Webpack

Design

Adobe Photoshop

Foreign Languages

English - Intermediate,

Spanish - Pre-intermediate

Education

Wrocław University of Science and Technology

2020-currently // Wrocław, Poland

Postgraduate studies with specialization Android and iOS modern mobile applications

University of Business

2016-2019 // Wrocław, Poland

Bachelor of Science in Information Technology.

Interests

Traveling, reading, phones repairing, listening spanish music
